Detailed information for calling off from this agreement can be found in section 7 of the buyers guide

Responsible Procurement

Responsible Procurement was embedded in the design of this procurement. Bidders were evaluated to assess their approach to modern slavery, environmental policy including compliance with BS EN ISO 14001 and their commitment to comply with the Sustain Code of Conduct.

Added Value

There are many benefits to using this framework:

• Compliant route through which Members can purchase estates and facilities management services dependent on individual requirements.

• A framework designed with Members specifically in mind, with input from a Project Team made up of procurement and FM representatives from across the higher education and cultural sectors.

- Ceiling prices that can be further reduced by competition at call off.
- Detailed and easy to use guides, support, and templates.

 \cdot NEC4 call-off terms and conditions which use plain English making them more user friendly and easier to understand, they enable collaboration between parties as

well as minimising chances of formal disputes occurrence. The new NEC4 FMC used for service Lots (1a, 1b, 2, 3 and 4) bring a closer alignment to the FM market.

• Introduction of a bundled lot to allow delivery of all three services through a single contractor.
