### Call Off Method

- Ranked
- Mini Competition
- Desktop Evaluation

### Responsible Procurement

Responsible Procurement.

- Paperless processes – web-based application allowing for a paperless booking process.
- Responsible energy usage - Assist students in understanding what they can do to reduce their energy consumption by providing access to resources and bring about an awareness of the University's own policies in this regard.
- Location Based Accommodation Selection – map centric user interface enables students to easily select accommodation located close to relevant academic facilities and therefore reducing their need to travel.
- Virtual meetings reducing carbon emissions through business travel and regular commuting is significantly reduced compared to an office-based supplier
- Minimising the environmental impact of hosting the Online Platform (e.g. Microsoft Azure datacenters / cloud sustainability through liquid immersion cooling, grid-interactive UPS batteries, cleaner fuels for power backup)
- Fair working practices – living wage, flexible working
- Modern slavery & supply chain – zero tolerance policies for forced labour, slavery and human trafficking
- Reduction of business travel via online communication, remote training and support.
- Prescriptive back of house processes to help Institutions to manage and reduce food waste

Community Benefits.

- Employment of interns and work experience placements.
- Training

#### Added Value

- Ceiling rates/maximum pricing defined and agreed for the duration of the Framework Agreement. This pricing can be reduced further at time of mini competition or through using the Desktop Calculator.
