## Added Value

- Current programme advice for each IG member
- Advise on programme structure including uninsured risks, over-insured or duplicated risks, levels of self-insurance taking account of market changes
- Maximising the group's bulk purchasing ability
- Provision of key data including sums insured, limits of indemnity, wageroll, premiums / claims paid / outstanding
- Claims advocacy work to review loss ratios, claims trends and benchmarking
- Management of the account to achieve benefits to all members, including management of cost contribution across the group to avoid divisive judgments
- A claims guide including insurer contacts, policy numbers and insurer details, how to make a claim and AJG Claims Advocate contacts
- Register of all policy covers for each member detailing the key risk and policy information
- Core service team to include Client Director who will provide additional claims support. A service team that provides back-office support and day to day query management and liaison with insurers.
- Specialist teams including medical risks, construction, fine art, terrorism, marine, aviation/space and more.
- Specialist claims support for large losses.
- 24 hour support contacts
- At least twice yearly meetings to include pre-renewal or renewal meeting and a mid-year review
- Management of policy issuance to comply with FCA requirements and KPI's
- Support on leases and contracts, and the indemnity clauses required
- Strategic and operational risk management support
- Online benchmarking system
- Actuarial report to be provided ahead of the tender exercise noting the "fair" rating of the group by individual member, and taking account of current market conditions.
- A report noting the current basis of cover available to Universities and the commercial market

to identify potential further enhancements of cover available.

- Negotiation with insurers to obtain competitive premiums and return of premiums where the group demonstrates risk improvements that have improved the overall risk
