Call Off Method

- Ranked
- Desktop Evaluation
- Mini Competition

Responsible Procurement

Responsible Procurement.

- The reduction of staff travel (increased use of teleconferencing, working from home) and encouraging the staff use of hybrid vehicles
- Minimising engineer travel (for installation and break fix support) by the careful location of resource across the UK
- Reduction in waste – packaging and/or further use of residue from processes etc.
- Reduction in consumption – use of raw materials (consumables, utilities etc.)
- Energy Efficient products
- Recycling and/or reuse of products.
- Take-back/buy-back schemes to return used equipment for refurbishment or recycling.
- Supply Chain Mapping
- Carbon Reduction initiatives
- Social, equality and/or environmental improvements.
- Compliance with the UN Declaration on Human Rights and the UK Modern Slavery Act
- Fair Work i.e. Contractors paying Living Wage/accredited

Community Benefits

- Staff volunteers engage with community projects once a quarter in support of the local community
- Student Apprentices offered the opportunity to shadow alongside engineers
- Student Placements
- Mock interview, work experience and CV writing support.

Added Value

- A pre-competes and compliant route to market providing a vehicle to centralise procurement spend.
- Mitigation of Procurement risk surrounding EU Procurement.
- Reduction in administrative costs and efforts.
- Provides flexibility to Institutions to determine specific requirements at Call-off Contract in line with the Framework Agreement specification.
- Ceiling rates/maximum pricing defined and agreed for the duration of the Framework Agreement. This pricing can be reduced further at time of mini competition.
- Effective reporting mechanism to obtain accurate, timely and relevant management information.
- Responsible Procurement activity is embedded where relevant and appropriate.
- Pre-defined and agreed Terms and Conditions.
- Shared risk and management of Contractors.
