Lot Information

01 : Simulation Manikins & Ancillary Products
- Laerdal Medical Ltd
- Limbs & Things Limited
- Sim & Skills Ltd
- Simulaids Ltd
- UK 3B Scientific Ltd

02 : Clinical Task Trainers & Ancillary Products
- Adam Rouilly Ltd
- Laerdal Medical Ltd
- Limbs & Things Limited
- Sim & Skills Ltd
- Simulaids Ltd
- UK 3B Scientific Ltd

03 : Dental Simulation Equipment & Ancillary Products
- Henry Schein UK Holdings
- Wright Health Group

04 : Ophthalmology & Audiology Simulation Equipment & Ancillary Products
- Adam Rouilly Ltd

Scope of Requirements

Lot 1 - High, mid and basic fidelity simulation manikins in a variety of ethnicities and skin tones, male and female, across a range of ages i. To include manikins simulating disabilities and diseases. Replacement materials and spare parts, ancillary products used to support the simulation experience, virtual dissection tables, associated medical simulation software including simulated electronic patient record systems.

Lot 2 - Neonatal intubation trainers, infant hip examination trainers, basic resuscitation trainers, modular skills trainers, airway management trainers, blood pressure training arms, cardiovascular and respiratory trainers, auscultation trainers, intra-venous training arms, arterial blood gas training arms, intra-venous torso trainers, intra-venous leg trainers, ultrasound procedure trainers, intraosseous trainers, maternity training kits, catheterisation trainers, bowel and enema trainers, abdominal trainers, venipuncture trainers, chest drain and needle compression trainers, surgical pelvic trainers, clinical pelvic trainers, epidural and lumbar puncture trainers, injection trainers, breast examination trainers, paracentesis trainers, in-growing toenail trainers, suture/would care pads and trainers, episiotomy repair trainers, perineal repair trainers, sphincter repair trainers, laparoscopic trainers, oral care trainers, obstetric examination trainers, nasogastric trainers, ostomy care trainers, blood glucose trainers, foot care trainers, ECG placement trainers, knot tying trainers, tendon repair trainers. Skeletal and anatomical models, replacement materials and spare parts, ancillary products, associated simulation software. Servicing, maintenance and training provision

Lot 3 -Phantom dental heads, dental task trainers, dental jaws, dental training simulators, replacement teeth, caries teeth, dental models, materials used to simulate extractions, impressions, drilling, filling and crown preparations. Supporting equipment including but not limited to hand pieces, aspiration systems and air motors. Also included are replacement materials and spare parts, ancillary products used to support the dental simulation experience, and associated simulation software. Servicing, maintenance and training provision is included in the scope but it is not a mandatory requirement that the Supplier is able to provide it.

Lot 4 - Ear examination simulators and models, eye examination simulators and models, ophthalmology and audiology task trainers , ophthalmoscopes, otoscopes, Snellen charts and Ishihara charts. Also included are replacement materials and spare parts, ancillary products used to support the ophthalmology and audiology simulation experience and associated simulation software. Servicing and maintenance provision is included in the scope but it is not a mandatory requirement that the Supplier is able to provide it. These lists are not exhaustive.

Accessibility

Open to members of: APUC, CPC, HEPCW, LUPC, NEUPC, NWUPC, and SUPC

Call Off Method

Call Off Options Available:

- Mini Competition
- Desktop Exercise
- Direct Award

Responsible Procurement

BT14 considerations for all lots

At Selection Suppliers were assessed for:
- Compliance with the requirements of the Modern Slavery Act 2015
- Payment of the Real Living Wage
- Carbon Reduction Plan

Recognising both the environmental and social risks associated with in-scope products, within the award criteria suppliers were asked questions on the following topics:
- Supply chain transparency, labour conditions and supply factory auditing.
- Circular economy including services to take away in-scope products at the end of their useful life and option to extend life to avoid landfill.
- Sustainability in the supply chain including reducing waste throughout the supply chain, extending the working lifetime of products, reducing the environmental impact of products, and organisational processes to keep abreast of more environmentally friendly materials and products.
- Packaging utilised in fulfilment, focussing on: systems to optimise packaging reduction and reuse, systems to ensure that packaging left with the customer is effectively labelled to support recycling at end of useful life, systems place to ensure that packaging within supplier premises will be effectively separated into single material packaging components and recycled (where it cannot be reused) through internal recycling streams.

Added Value

Added Value
- Savings to be achieved in terms of process savings for individual institutions.
- Savings to be gained from collaboration/consolidation of members spend.
- Flexible Agreement for members to carry out mini competitions.
- Strategy that mutually supports regional consortia.
