Responsible Procurement

Westworks is a not-for-profit organisation dedicated to serving the public sector. Our vision is to harness the power of procurement to create a better future. We achieve this by providing procurement solutions that offer value for money, secure capable contractors, and deliver excellent outcomes for communities.

Compliance and transparency sit at the heart of what we do, and we believe this should be reflected in our processes, the relationships we hold and how we behave. The steps that we take to be a more responsible procurement provider include:

Our supply chain

- We make public sector contracts accessible to SMEs and local suppliers by providing flexible procurement solutions and a supportive service.
- Due diligence is conducted on all our approved suppliers to ensure they are legitimate and financially stable organisations who are capable of delivering public sector contracts.
- We check and monitor the credit ratings of all approved suppliers on our DPS.

Our clients

- We verify that all Westworks clients are spending public funds and are eligible to use our solutions.
- We work with clients to ensure their procurement approach is fair and transparent for all involved parties.
- Payment terms for both parties are clearly outlined to clients before we enter into any written agreement.

Our organisation and team

- We are a small business contributing to the local economy by employing local talent and prioritising local businesses to supply us with goods and services.

- Our small size, local workforce, hybrid and paperless working model mean our environmental impact is already minimal. However, we are committed to measuring our carbon impact and reducing it further where we can.
- Our Cyber Essentials certification demonstrates our robust commitment to safeguarding our business, stakeholders, systems and data.

Added Value

Our team can provide you with advice on current market conditions and how to best package your tender. We can also provide examples from our library of suitable quality and social value questions.
SUPC members are invited to join our webinars and events. Register for our upcoming events here: <https://www.westworks.org.uk/supc-procurement-partnership/>
